THE CAGED WIG

Founder • Wig Stylist • Educator | 2020–Present

Started The Caged Wig in 2020 as a creative outlet for building and styling wigs, with a focus on sculptural styles and wig cage construction.

Created custom wigs and specialty styles for performers including Todrick Hall, Alyssa Edwards, Nina West, Jimbo, Ginger Minj, and more.

For the past several years, I've traveled throughout the United States, Europe, and Australia teaching hands-on wig styling and cage-building classes for everyone from beginners to working industry professionals.

Along the way, The Caged Wig has grown into an online community of more than 100,000 followers centered around wig styling, education, and sharing creative techniques.
